These series of quests are called Womans Lot and Pater Nosters Paradise. Womans Lot is for all female characters and Pater Nosters Paradise is for all male characters. Pater Nosters Paradise is all about being with your family and giving them the attention they deserve. In order to do so, you will get a new companion to help you on your journey. You can also play around with a new minigame to help boost your character. If you want to experience the new series of quests then you will have to complete the main quest in Kingdom Come Deliverance: A Womans Lot. There is no point in doing so as it will not make any difference for the rest of the game.
